Meters will reset at the beginning of each month including pre-paying customers. No block categorisation will be done. All customers will buy the initial 500kWh in the month at the first block tariff and then advance through the blocks to their ultimate consumption for the month.

NB: All charges are exclusive of VAT.

"A 2c/kWh Demand side Management (DSM) Levy will be charged to all customers that consume above 500kWh per month. Customers on business prepaid tariff will be charged 2% municipal surcharge on their purchases excluding VAT and 2c DSM levy amount".
